

Who We Are

NCI is a worldwide provider of leading-edge enterprise services and solutions to Defense, Intelligence, Healthcare, and Civilian Government agencies. We are focused on reshaping the way services and solutions are delivered to our customers in order to proactively understand and meet their mission needs and enable them to rapidly adapt to dynamic environments. Inspired by our customers' missions and driven by their challenges, we help them achieve higher levels of performance by utilizing innovative, cutting-edge technologies and methodologies in the following capability areas:

- | | |
|---|--|
|  Cloud Computing and Data Center Consolidation |  Health IT and Medical Support |
|  Cybersecurity and Information Assurance |  IT Service Management |
|  Engineering and Logistics Support |  Modeling, Simulation, and Training |
|  Enterprise Information Management and Advanced Analytics |  Software and Systems Development/Integration |

Our team of highly skilled professionals is committed to service excellence and delivering results on time and within budget. Headquartered in Reston, Virginia, NCI currently operates in more than 100 locations around the globe. We are a trusted partner when and where you need us most.

Key Points

- NCI is CMMI appraised, holds certifications in ISO 9001:2008, and fully integrates ISO 20000-1:2011 quality aspects into our information technology (IT) methodologies.
- We use tailorable, integrated methodologies and solutions that support our customers in a fiscally strained environment.
- Our innovative approach includes partnering our in-depth expertise and cutting-edge solutions with leading product providers like Amazon, Microsoft, Google, and more.

NCI Corporate Overview

Providing Cutting Edge Services and Solutions

- Passive Optical Network Implementation
- Enterprise Content Management (ECM)
- Data Base Administration and Data Storage Management
- Infrastructure Engineering, Development, Implementation, and Integration
- Enterprise Application Development
- Requirements Analysis, Design, Coding, and Testing
- Enterprise Business Systems

NCI Healthcare Solutions

At NCI, we are committed to providing exceptional health information technology (HIT) services and support, healthcare consulting, and management to U.S. Civilian and Department of Defense (DoD) Government organizations as well as active-duty and veteran soldiers and their families. The innovative behind-the-scenes work we do helps ensure information is secure and people are taken care of, whether it is providing updated networks for transferring medical information, offering help desk support for patients, or providing data management for electronic health record (EHR) storage. We specialize in HIPAA- and FISMA- compliant solutions, and our systems are ICD-10 compliant.

NCI Contract Vehicles

NCI holds a prime position on some of the largest and most important government-wide acquisition contract (GWAC) and indefinite delivery/indefinite quantity (IDIQ) contract vehicles in the industry. With requirements that are constantly changing, these contract vehicles provide our customers with a streamlined mechanism to quickly and easily request services and solutions while ensuring maximum value. The following are some of our IDIQ vehicles:

Army Eagle	SeaPort-e
CIO-SP3	TEIS III
DESP III	GSA Schedules
DOJ ITSS-4	GSA Alliant
ITES-2S	GSA IT Schedule 70
NETCENTS 2	GSA Logworld
OPM TMA	GSA Professional Engineering Services
PEO Soldier	
R2-3G
