# NCI *Empower* AI Platform™

The Empower AI platform™ provides never-before-seen efficiencies, dependability, accuracy and cost savings to organizations. Our combination of expert engineering, technologies, and AI solutions allows for rapid execution and decision-making.

The NCI *Empower* platform's 24/7 portal allows your organization to watch performance of your systems as Machine Learning and intelligent automation make them more efficient, so both the human and technology get better over time.

The Value of AI Operations

NCI *Empower*/ments can digitally transform your organization to help solve your toughest challenges. It will improve performance and efficiencies while cutting costs, scaling systems and reducing error rates.

Value

Benefits to Your Organization

Teamed with NCI engineering expertise, the NCI *Empower* platform can accelerate your organization's efficiencies and accuracy, allowing for more critical decision-making time. Having the Empower AI platform™ onsite or in the cloud allows your organization to maximize operations by continuously learning and using it to test new workflow processes.

The NCI *Empower* platform's learning capabilities far exceed human data analysis and can show you trends, make predictions based on your requirements and help you solve processes challenges faster and more economically.

HOW IT WORKS

EMPOWER Toolkit

NCI *Empower* toolkit offers proven solutions to meet your needs, such as intelligent automation with customized bots and machine learning — all designed to empower your organization.

*EMPOWER*ments

Using the AI tools and capabilities of the NCI *Empower* Platform, we have successfully empowered organizations across the US government and developed *Empower*ments — our pre-built applications of the *Empower* Platform, such as Intelligence Center and our AI Assistant.
